

Hiland Acres Water & Sanitation District
Spring Newsletter
MAY 1st, 2022

Spring is here and we will soon be into the summer watering season. We will need the residents to adhere to the watering restrictions starting June first. The even number house addresses will **water on** Monday, Wednesday and Friday and odd number addresses will **water on** Tuesday, Thursday and Saturday. Hand watering is allowed on Sunday. Also, **there are no restrictions on water use for livestock**. The summer watering schedule applies from June 1st to September 30th.

Just as a reminder to the residents, the North Metro is very strict on what can be flushed down the toilet and we must have the residents adhere to these restrictions. Basically, nothing can be put through the system but regular household waste and toilet paper. Things we need to be the most careful of are female sanitary waste and flushable wipes which are not acceptable even though **the label** says they are flushable.

The fire station where the water board meetings were held is still closed to those meetings due to covid restrictions. The meetings continue to be at Jim Roos's house at 15850 Elmira street on the 3rd Thursday of the month. Residents are welcome to attend these meetings. Last year the north well tank and well needed some repair. This project is now complete with new electrical, a new pump and motor. The fire hydrant flushing is starting soon. Also, we would like to remind the residents that the Hiland Acres website is up to date and contains the current treasurer's, secretary's, operation's reports and pertinent resident information.
